KEY FEATURES

PREMIUM COMPONENTS

A Shimano SLX drivetrain provides easy pedaling and smooth shifting. Magura hydraulic disc brakes stop on a dime. And a RockShox suspension fork helps you maintain traction and ride comfortably over rough terrain.

RIDES LIKE A DREAM

Finely-tuned frame geometry makes you feel like you're one with the bike! Popular 27.5" wheels are responsive and stable. And the battery is built into the frame for sporty handling.

BREATHTAKING PERFORMANCE

- A whisper quiet, 500 watt motor delivers best in class acceleration and hill climbing. The sensation of power it gives you is exhilarating.
- A state-of-the-art 48 volt battery uses the same advanced lithium-ion cells as an electric car. It weighs less than a housecat and can take you up to 90 kilometres on about 10 cents worth of electricity.

SMALL DETAILS MAKE A BIG DIFFERENCE

1. Shimano SLX

20-speed drivetrain for easy pedaling and smooth shifting.

4. Integrated BATTERY

A removable battery is integrated into the frame for sporty handling.

2. RockShox Recon

Suspension fork with 120mm of travel helps you maintain traction.

5. PedalSense®

Twist-and-go throttle, 5 levels of pedal assist, and LCD display with USB charger.

3. Magura MTE

Hydraulic disc brakes with 180mm rotors that can stop on a dime.

6. 27.5" wheels

Sweet spot between responsive, lightweight 26" wheels and fast, stable 29" wheels.
